THE EASTERN WAR.

MIDNIGHT DESPATCHES.

forth to breathe the pure air of heaven, he was seized by the enraged feminine and most unmercifully thrashed. To make matters worse, she has learned that she has thrashed the wrong man, and having now ascertained beyond a peradventure that the man she was who tried to play a practical joke on her, she has a rod in pickle for him, and only awaits time and opportunity to give him what she gave the pedagogue—a good deal more.

ISLAND REVIEW.—The collections in the Belleville district for the month of February were: Spirit \$3,178.18; tobacco \$234.10; malt \$416.54; other revenues \$1,841.84; total \$5,760.66. Last month \$5,486.99; increase \$273.67.

VITAL STATISTICS.—The vital statistics of the city for the month of February, as registered, were as follows: Births 21; Marriages 4; Deaths 14, as follows: From pneumonia 2; Liver complaint 1; Consumption 2; Inflammatory croup 2; Diphtheria 3; Cancer in the womb 1; Dropsy 1; Cancer 1; Scalded to Death 1.

NEW LAW PATENT.—It will be seen by card in another column that Messrs. A. B. Douglas and N. D. Falkner, barristers, have entered in to partnership in law, and have taken the name of Douglas & Falkner, and will continue to practice as such.

15TH BATTALION A. L. I.—A large number of the members of this Battalion being desirous of resuming the weekly drill, Capt. Meyer of No. 6 company, called his company together at the army hall last evening, when it was decided to meet for drill on the 15th inst. at 7 o'clock, and that No. 1 company, in the interest of themselves and the battalion, should co-operate. It is the wish of Col. Lester to make this battalion second to none in the Dominion, and it is therefore desirous that this weekly drill should be made unanimous. The next meeting for drill will take place at the army hall on Monday evening next, at 7:30.

A RAID ON THE BOYS.—Last night a number of boys who had congregated in the stairway at the Metropolitan Hall, as frequently the case when entertainments are given there, were very noisy, and the police were sent for. Sergeant Smith and his men, who were off duty and consequently not in uniform, soon arrived, and their identity not being ascertained, owing to their being in civilian dress, they succeeded in dispersing the boys, who were lodged in the cells all night. This will probably put an end to noisy demonstrations by boys, which are a constant source of annoyance at places of amusement.

STEAM HEATING.—The experiment of heating Lockport, New York, by steam has proved, it is claimed, highly successful. Three miles of pipe have been laid, with non-conducting material under ground, through some of the principal streets radiating from a central boiler house, and fifty different dwellings and other edifices, including one large public school building, have been thereby warmed all winter. The steam generator are heated as readily as those next door. Steam meters are provided, so that each consumer. It is claimed that the system can be developed so as to furnish steam at fifty pounds pressure transmitted through twenty miles of pipe.

THE STATE OF TRADE.—The Montreal Gazette says: "Wholesale business has undergone no change of importance since last report. The movement in all departments continues to be slow, and there is no immediate prospect of revival. The extraordinary mildness of the weather still exercises an unfavorable influence upon the trade, the want of snow causing a blockade in the country districts and checking the marketing of produce. Farmers, apparently, have sold very little of their grain this winter, stores in the towns and cities in Ontario keeping low, and this fact accounts for the steady decline in the bank circulation and the scarcity of money. Our contemporary adds that there is nothing on which to base a hope of any improvement in business."

ANOTHER FRAUD.—The *Southwest Reporter* gives the following particulars of a new kind of fraud practiced on the farmers of that section. A couple of agents were engaged in selling fanning mills, representing they were a new specimen mill. They took the farmer's order for a new mill on the proper order blanks of the firm they represented, and as an inducement to the farmer to purchase the new machine, they purchased the old one being his great inducement to the farmer to give his order for the new. The farmers, however, did not discover until too late that they had given a bona fide order for the new machine, and that they only held the order or due bill of an irresponsible agent as the price of their own mill. Of course the new machines will be forwarded in due time and the full price paid for them, whereas the old mills which were bought by the agent and not by the company, and paid for by his note, will never be called for.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

LONDON, Feb. 28.—It is stated that considerable negotiations are going on at the moment between the British Government and Russia. The Opposition leaders in Parliament are determined not to embarrass the Government while the peace is being negotiated. It has been informed that it is desirable that the interests of peace should be a definite Ministerial statement. It is also said that Russia is anxious to erect a fort on the Danube river, and it is rumored that England, Austria and Italy have informed Prince Gortchakoff that they will not support the Russian Government in this determination.

In the House of Commons, Sir Stafford Northcote stated that the Government was not prepared to accept the Russian proposal, but if they were to do so, the Government would take the proper course to prevent them from doing so. The Russian proposal was received by the Government on the 26th inst.

The morning papers abound in details of military preparations. Some militia colonels have been warned that their regiments may be required for permanent duty. The militia will be armed with Martini-Henry rifles.

A Berlin correspondent says: "It is generally believed that Austria will eventually co-operate with Russia in the occupation of Turkish territory."

A Vienna correspondent says: "The chances of Austria's going to war are smaller than ever. The Government are only waiting for a majority of opinion for the withdrawal of the delegation, and it would not be surprising if the idea were abandoned at the last moment."

A Constantinople despatch says: "The greater part of the Russian conditions have been accepted by the Porte. It is expected the treaty will be signed on Tuesday. The delay was caused by the Turkish objection to the inclusion of Salonica and Delvina in the proposed treaty. The Russian position is the possibility of the rupture of the negotiations appears unimpaired, although the question relative to the Turkish debt is still unsettled."

The St. Petersburg *Globe* calls for the occupation of the Danubian by Russia.

A St. Petersburg despatch says: "The nomination of Lord Napier to the chief command in producing great excitement here. It is believed that the treaty of peace will be signed on Saturday, the anniversary of the Czar's accession."

The *Quaker* of St. Petersburg considers immediate war with England preferable to concessions.

A Telegram correspondent learns from a diplomatic source that, in consequence of possible complications with Austria, Russia has promised Servia a much larger extension of territory than is mentioned in the peace conditions, at the same time requesting Servia to keep her military forces on the border of the Russian Empire, and call off the third class. Russia announces that she would immediately occupy Belgrade in the event of hostilities with Austria. The Servian Government are quite at a loss how to decide, and are waiting for the return of Prince Milan.

MORNING DESPATCHES.

EUROPEAN.

THE SITUATION MENACING.

LONDON, March 1.—A St. Petersburg despatch says there is great warlike excitement there in consequence of the British Government threatening to withdraw the Ambassadors at St. Petersburg if the Russians enter Constantinople. The situation is regarded as menacing.

AFTERNOON DESPATCHES.

ST. PETERSBURG, March 1.—The *Globe* says that typhus fever is increasing rapidly among the Russian troops in Rumania. All the Rumanian R.R. carriages are infected. It is absolutely necessary for the army in Turkey to return by sea, and not through Rumania. Constantinople despatches of Feb. 27th say the Russian plenipotentiaries manifest irritation at the slow progress of the negotiations. If the negotiations are not completed in a few days, it is expected the plenipotentiaries will present an ultimatum, fixing the date when the treaty must be signed.

MADRID, March 1.—In a speech to the Cortes to-day, Senor Castelar declared that Spain was in possession of Gibraltar.

LONDON, March 1.—A renewal attempt to hold a peace meeting will be made at Hyde Park on March 10th.

Jan. Rankin, well known writer on art, is dangerously ill.

A Vienna correspondent says: "There is little preparation for Austrian mobilization to be made. For the last seven years these preparations have been going on, and since last year, when the possibility of such a measure arose, plans have been worked out by the very smallest detail."

LONDON, March 1.—A Constantinople despatch says after six days conference the Russian plenipotentiaries have been unable to agree on the terms of peace. Negotiations still progressing. It is stated that Russia will not give up a single inch of territory. The Russian plenipotentiaries in Congress being held until the treaty has been signed.

WEATHER REPORT.

TORONTO, March 1.—Probabilities for the next twenty-four hours for the Lower Lake region fresh to brisk northerly to southerly winds, clear to fair cold weather. For the St. Lawrence moderate to fresh winds and fair to cold weather. For the Maritime Provinces, rising barometer, fresh to brisk westerly to southerly winds, clear to fair and decidedly colder weather.

WASHINGTON, Feb. 28.—Indications.—For Lake, decidedly colder, clear or partly cloudy.

Bleeding of the Lungs.

DOWNSVILLE, Ont., Nov. 8, 1877. Messrs. B. W. & S. W. Smith, Boston: Gentlemen, I have been troubled with bleeding of the lungs for a long time. About 1874, I was taken with a severe cold which my lungs very sore, but after using one bottle of Dr. HALL'S HEMOPHILIC CURE, the pain and cough disappeared and have not troubled me since. Electoral and Parliamentary Corruption.

One of the strongest accusations made by the Grit party in opposition, and one which they never seemed tired of repeating, was that the Conservative Government had debauched the electorate by bribery and other corrupt practices, by which means alone they were able to retain power. At the same time they took occasion to exhort their party to the same. This was in the good old days when such assertions were not easy to controvert, as the law was in their hands, and it was considered a disgrace to establish charges of the nature named, hence controverted election cases were few, and hence, also, there was no authentic way of determining the character of the self-education of the Grit party, the denunciation of those opposed to them. The passage by Sir John Macdonald's Government of a more stringent election law, by which the trial of controverted election petitions was referred to the Judges of the law, has shown how unfounded were the charges of the Reformers and how entirely pharisaical and hypocritical were their assertions of their own purity. The effect of this exposure has been to raise the reputation of the party, and to show that the Reformers had been so long and so strongly condemned.

As the present Parliament is now near the close of its constitutional existence, a review of the facts, as concisely as may be, will not be out of place at this time, as the historical facts in the present part of the record. Previously to entering upon the necessary details, however, it may be as well to remind the reader that when the general election of 1874 took place, the Reform party was very strongly on the side of the Reform party, more so than it has likely ever to again. The people had been led astray to such an extent by the "Pacific Standard," that there was no necessity of supporters, and consequently, that, at any time, should they, had they been honest in asserting their party, but legitimate means to secure their triumph at the polls. The Conservatives, on the contrary, felt that they were in the depths of unpopularity, and it may fairly be assumed that under these circumstances it is at any time would they have resorted to the use of money to stem the current of popular feeling, which unbecoming calamity had caused to run so powerfully against them. Being thus seized of the most important facts of the case, we may now see how Grit "party" made itself manifest, as exhibited upon sworn testimony taken before the Grit members. The Grit members of Parliament insisted for corrupt practices in their elections to the present Parliament were as under:

Admission—Sylvester Shilling, Jr., discredited.
Chambers—Amable Jodoin, Jr., unseated twice and disqualified.
Charlevoix—Pierre A. Tremblay.
Cornwall—A. F. Macdonald.
Essex—Wm. McGregor.
Glengarry—Archibald McNaught.
Huron, South—Malcolm Colin Cameron.
Lincoln—James Norris.
London—John Walker, unseated and disqualified.
Montreal Centre—Bernard Devlin.
Montreal West—Frederick Mackenzie, twice unseated.
Norfolk South—John Stuart.
Northumberland East—James E. Biggar.
Northumberland West—William Kerr.
Rainbow North—William Murray.
Rainbow South—John M. McDougall, twice.
Richmond and Wolfe—Henry Aylmer.
Simcoe North—Herman H. Cooke.
Toronto East—Robert Wilkes.
Toronto East—John A. Drake.
Two Mountains—Wilfred Trevelyan.
Victoria North—James McLennan, twice.
Wellington North—Methuen Higginbotham.

York North—Alfred H. Dymond.
Thus it is seen that twenty members of the "party of purity," when their professions were put to the test, were found to have practised that which they had decried the people for practising by asserting that they were free from, when the time arrived when, to use a familiar figure, they were no longer allowed to measure their grain by their own standard, and three of them were disqualified for actually bribing and corrupting. In addition, Mr. Macdonald, one member of this impious party, who was unseated for election in Dorchester, Quebec, and then petitioned against the return of his opponent, had the tables turned on him most effectually, being himself disqualified for personal corruption. The record therefore shows that one-sixth of the entire number of Grit members returned at the general election of 1874, were unseated for debauching the electorate.

What would have been the result if the return of the "Reformers" who were elected after a contest had been petitioned against, it is impossible to state, but the probability is that one-half of such members would have been unseated.

This is a terrible showing, in face of the declarations placed on record by the party concerned. But worse remains behind. Not only were those noted corrupt practices, but they have also provided themselves personally corrupt and self-seeking. The Government, in fact, was the Government in securing themselves in their position and in rewarding those who had served the faithful, that favors at the public expense, of the Government, were literally showered upon the doubtful, in order to retain their support, and upon the faithful, as a reward for their services, in direct violation, on the part of both givers and receivers, of the independence of Parliament Act, which is the law of the land. Some ten or a dozen Grit members were concerned in these transactions. The Speaker, who was not a member of the popular branch of the Legislature, should of all men be above suspicion, was corrupted and subverted by being given printing to the amount of over \$2,000 per annum, which work, being incapable of executing in his own one-horse office, he farmed out to other tradesmen, his only trouble being to sign the receipts and pocket the profits, which were under the name of a commission of \$2,000 per annum. These favors were given to Mr. Anglin, in order to propitiate him for his disapproval in not receiving a seat in the Cabinet, which he had refused to do, and to his going into opposition. Messrs. Jones and Vail, the present and late Ministers of Militia, members of a firm which owned the Halifax Express of the pure party, received greater favors than did Mr. Anglin in his going into opposition. Messrs. Jones and Vail, the present and late Ministers of Militia, members of a firm which owned the Halifax Express of the pure party, received greater favors than did Mr. Anglin in his going into opposition.

The House then went into Committee on the Bill amended the Revised Statutes, now for record, and resumed. The railway clause of the Bill was debated at great length, and the Attorney-General finally asked the House to pass the clause as it was, and he would see that no modification of it could be framed and submitted to the House. Mr. Meredith moved the addition of a clause conferring the right to vote at school meetings on income franchise voters. The chairman ruled the motion out of order, and the Bill was agreed to by the Speaker. The House then considered in Committee the Bill to amend the Liquor Act, after which, at 10 p.m., the House adjourned.

NATURAL, March 2.
The House met at 11 a.m., and on the third reading of the "London Water-Works Amendment Act of 1875," and the Bill to incorporate the British Columbia and Northern Railway. The first resolution related to the aid to be granted to certain railway companies, as follows:—The Hamilton and Northern Railway from Jarvis to Dover—a distance of some ten miles, to receive at the rate of \$173.04 a mile per annum, payable half-yearly for twenty years; the Port Stanley and Port Stanley Railway—a distance of about ten miles, at the rate of \$173.04 a mile per annum, for twenty years; and the North Simcoe Railway, for a distance of \$216.30 a mile per annum, for twenty years. The second resolution related to the conditions under which these grants of aid were given. The consideration of these resolutions in Committee was deferred till a future sitting.

Mr. Wells, in moving the resolution for a Return of all communications, correspondence and negotiations connected with the hypothecation of certain Dominion Stock to the extent of \$140,000 sterling, during the year 1877, stating the amount received on each by hypothecation; the rate of interest; the amount of commission for negotiating the loan; the specific time (if any) for which the loan was to be repaid; the value of the stock at the time of hypothecation; the market value of said stock at the first accrual of interest thereon after such loan, and the present market value of said stock, and that the hon. Financial Secretary in his Budget Speech gave a portion of the information asked for in the return, but there were certain parts which were not explained. In making his speech he took great credit to himself and Government for the transaction. He borrowed the money on the deposit of the Dominion debentures, which show a margin of 5 p.c. (not an unusual margin) at the rate of 4 p.c. and appears thereon. Now if the money was borrowed in October last, when the bank rate of interest was 3 p.c., the loan was not much to boast of. The hon. Treasurer gave in the speech the reason of so borrowing, that he thought the debentures would remain at the same quotation immediately after the payment of the interest as it was when he borrowed, and would therefore make by it. But the hon. gentleman will find that the dealers in stocks in England understood the computation of value equally as well as the hon. gentleman, and the Government; and that although a different manner of computation of interest obtains there from that presented here, yet they were equally satisfied. If the stock there did not rise in the proportion the interest was securing, the stock was actually going down. Now he (Mr. Wells) thought it better to sell the debentures at the time money was wanted, and speculate for a rise in prices. Should the war which is now pending break out, he would find that the debentures now hypothecated would be worth less than the cash he had, and instead of getting 105, the value then, they would have to sell them for perhaps 90. The advisability of speculating in the market has been fully explained by said stock and the transaction, and although the Premier of Canada thought he would make money by the transaction, still the dealers in loans know the value of a little better than the course of the country now too well know. He therefore hoped that no war would burst upon the world, and that the Government would get out of the transaction without loss.

Mr. Wells said that he found it not advisable to sell the debentures when the first loan became due, and that he has now renewed the loan at the rate of 4 p.c. and has had no objection to the return being brought down.

The motion was carried.

Several other minor matters for returns having been made and agreed to, the House adjourned at 2:10 p.m.

The interior of Peru is threatened with a famine, and the country is suffering from insurrection.

Ontario Legislature.

THIRD SESSION—THIRD PARLIAMENT.

FEBRUARY, MARCH 1.

During the morning session, on the motion for the third reading of the Bill giving facility to Voters' Lists, Mr. Meredith moving in amendment that it be read back to the Committee for the purpose of inserting a clause that the Act should not be enforced this year as regards the lists of 1877. The amendment was lost by a vote of 44 to 37, and the Bill was read a third time.

The Bill respecting Union School Sections was also read a third time, and the House adjourned at 4 p.m., while still considering in Committee the Bill amending the Revised Statutes.

During the afternoon session, on the motion for the third reading of the Bill respecting the Municipality, Mr. Cameron moved in amendment that it be referred back to Committee for the purpose of striking out the clause relating to the appointment of Police Magistrates for any county, or any part of a county, when it was thought that the due administration of justice required such appointment. The amendment was lost by a vote of 47 against 31.

Mr. Cameron then moved the House back to Committee for the purpose of striking out the third sub-section of section nine. This sub-section provides that no other justice of the peace shall be allowed to bail, or discharge a prisoner, or adjudge a case in which the judicial proceedings take place before a police magistrate, except in the absence of illness, or on the request of such police magistrate. The amendment was lost by a vote of 45 against 31.

Mr. Meredith offered another amendment, which was lost by a vote of 46 against 32, after which motion for the third reading was carried.

The House then went into Committee on the Bill amended the Revised Statutes, now for record, and resumed. The railway clause of the Bill was debated at great length, and the Attorney-General finally asked the House to pass the clause as it was, and he would see that no modification of it could be framed and submitted to the House.

LOCAL MINISTRY RESIGNS.

A NEW MINISTRY APPOINTED.

QUEBEC, March 3.—The resignation of the Local Government was placed in the hands of the Lieutenant-Governor last night. The matter was kept perfectly quiet, and no intimation of it has been given officially. Mr. Pothier, however, is reported to have informed this morning at his hotel, to a number of Conservative friends. The only positive information is that the Lieutenant-Governor has accepted Mr. Joly's resignation, and that he has accepted his Ministers' resignations, and that he has been named by Mr. Joly, or will be, to-morrow. It is certain that the name of the new Ministers cannot be ascertained until Tuesday. The cause of the Government's resignation is said to be the Lieutenant-Governor's refusal to sanction either the new bill or the railway bill. The Premier was present at Spencerwood, where the Legislature adjourned yesterday afternoon. There is great excitement in the city respecting the political crisis, and all sorts of idle rumors have been circulating during the day. The Government have not yet been fully adopted, and the Government refuse to vote them. Mr. Joly and his friends will all go on to the city.

FROM MONTREAL.

MONTREAL, March 3.—A dispatch from Quebec says the Ministry have not resigned, but were dismissed in a most brutal manner. A coalition is totally impossible. Mr. Joly has been offered a portfolio, but has neither accepted nor declined. It is believed he will not accept. The feeling in high circles here is that Mr. Joly cannot form a Ministry to satisfy his supporters.

BELLVILLE, TUESDAY, MARCH 5.

City and Vicinity.

Last—To-morrow will be Ash Wednesday, the commencement of the Lenten season.

Arrived—The steamship Polytechnic arrived at Halifax on the 5th inst at 9 o'clock a. m.

Damage by the Flood—It is satisfactory to learn on the authority of the officers of the Public Works Committee, that the damage to public property caused by the water will not exceed \$125.

The Supply—Report has it that the supply of coal is likely to fall short during the coming season, unless colder weather sets in. In the prevailing cold weather, the coal dealers have been too late in commencing their operations.

The Family—A family of 100 persons, they also sell all kinds of food at proportionally low rates.

First of the Season—Eleven cases of the latest American hats and caps, and 6 cases of the latest English stiffs and cloth hats at Hyman's, opposite Consolidated Bank.

Associate Coroners—Amongst the appointments by the Ontario Government published in the last Ontario Gazette, we notice the following:—"John J. Farley, of the town of Belleville, M. D., to be an Associate Coroner in and for the County of Hastings."

Transport of Coal—A letter from Joseph Hickson, Esq., General Manager of the Grand Trunk Railway, was read in Council last night. Mr. Hickson acknowledged the receipt of the resolution of the Council, and states that the subject shall have due consideration at the proper time.

Falling—We regret to learn that Patrick Lawlor, formerly a police constable, and who has been incapacitated from duty by illness for upwards of a year, is now in a dangerous condition. Owing to the effects of his illness he has become damaged, and there is little hope of his recovery.

The Toronto Tribune—We have received a well assorted Crayon Lithograph published by the Toronto Tribune, the paper belongs to this country, which is being presented by the publisher of the Toronto Tribune to all the subscribers to that paper.

Fur Spoils—In a moment of forgetfulness, one of Mr. Geo. H. Haymes' sons, who closed that gentleman's fur store last night, left two buffalo robes and some other skins hanging outside the shop door. During the night the articles thus exposed were all stolen, entailing a loss of \$60 or thereabouts upon their owner.

Doesn't Rule—If the City Council does not hereafter transact its business in a business like manner, it will not be far from good rules to guide them. The By-law to regulate the proceedings of Council, passed last night, contained the necessary provisions, and is a credit to its author, Alderman W. J. Diamond.

Bureau Stock Taking, James Hennessy wishes to clear out all the odds and ends of Dress Goods, Shawls, Cloaks, Flannels, Woollens, Prints, Cottons, Steam Cloths, Hosiery, Gloves, Scarfs, Towellings, Ties, Table Linens, &c. &c., of James Robertson's Bankrupt Estate, at whatever prices they will bring, before taking stock. Note the address, Robertson & Empey's old stand—Jas. Hennessy, Dealer in Bankrupt Stocks. ddkw

Dismissing—The stench which arises from the cells is annoying and disgusting now as at any previous time. This nuisance penetrates into the City Clerk's office every day, almost compelling the City Clerk to leave his office locally, in spite of all attempts at ventilating the apartment by opening the windows. The work of removing the cells was authorized last year. It is again being talked about, and the sooner it is carried into execution the better.

The 17th Battalion—The officers of the 17th Battalion have received a letter from the City Council for a grant of \$200 per annum to assist in keeping up the regiment and maintaining the band. If the state of finances will permit, a grant ought certainly to be made, as besides the sum drawn from the Government the officers are at heavy expense in maintaining the efficiency of the regiment, which is now a credit to the city.

Police—The Police Commissioners have in deference to the wish of the citizens, expressed through the City Council, resolved not to increase the number of officers employed at present. They have, however, been to increase in the salaries to the amount of \$500 per annum on the whole, the Chief receiving an advance of \$100 per annum.

Police Court.

TUESDAY, MARCH 5.

VAGRANCY.

William Morris was charged.

LUNACY.

Bernard Hopkins, held as a dangerous lunatic, was committed to goal.

Inquest at the Institute.

The Institution for the Deaf and Dumb, which has since its opening, enjoyed a remarkable immunity from disease, has been visited within the last two or three days with some sort of low fever which has prostrated some fifteen or twenty pupils, and we were to learn, resulted fatally to four of those attacked, two deaths having occurred on Sabbath last. It has been alleged that there is some local cause for the prevalence of this disease—some attributing it to over-heating the building, others to the cold weather, and others again to impure water. With a view to ascertain the true source of the disease, it has been deemed advisable to hold an investigation, and in accordance with instructions received from the Government, an inquiry was begun last night on the body of Mark Reid, before W. H. Fenton, Esq., Coroner, and the following jury: C. V. Rogers, James Galt, Hugh Wallis, Wm. Galt, George Gilman, W. J. Hudson, George Walker, Edward Linn, W. E. Garratt, John C. Lake, John L. Lattimore, C. Lamborn and John Bell.

After some evidence had been heard, the inquest was adjourned until today at 3 o'clock p. m., when the jury would proceed to view the source of the water supply and the place which is supposed to be contaminated by the sewerage, and whence the infection is believed by some to have arisen.

Tea Meeting at Tweed.

A very successful Tea Meeting took place in the Methodist Church, Toronto, on the evening of the 3rd inst. The proceeds of the affair, which were \$100.00, were for the benefit of the Toronto Bazaar. The funds realized went to pay off the debt due on the Bazaar building to Tweed Credit. After the good thing had been disposed of, the Rev. Wm. Seaton (pastor) took the chair. On the platform were the Rev. George Young, President of the Toronto Conference, Rev. Wm. Hewitt, of Bridgewater, and Rev. James Salter, of C. M. Mission, at Tweed. The Rev. Salter called on the choir for a piece of music, which was rendered in capital style; then introduced the speaker of the evening, Mr. F. Young, who entertained the company for about two hours, his subject being The Far West. The Rev. lecturer in his previous lecture described the North-West from the time King Charles granted a charter to Prince Rupert and the Hudson's Bay Company in 1670, down to the time the Province of Manitoba was taken possession of by Colonel Wolley and the Royal Canadian Mounted Police. During the lecture the speaker was interrupted by the Rev. Mr. Young, who interrupted the speaker for about two hours, his subject being The Far West. The Rev. lecturer in his previous lecture described the North-West from the time King Charles granted a charter to Prince Rupert and the Hudson's Bay Company in 1670, down to the time the Province of Manitoba was taken possession of by Colonel Wolley and the Royal Canadian Mounted Police.

If the City Council does not hereafter transact its business in a business like manner, it will not be far from good rules to guide them. The By-law to regulate the proceedings of Council, passed last night, contained the necessary provisions, and is a credit to its author, Alderman W. J. Diamond.

Bureau Stock Taking.

James Hennessy wishes to clear out all the odds and ends of Dress Goods, Shawls, Cloaks, Flannels, Woollens, Prints, Cottons, Steam Cloths, Hosiery, Gloves, Scarfs, Towellings, Ties, Table Linens, &c. &c., of James Robertson's Bankrupt Estate, at whatever prices they will bring, before taking stock. Note the address, Robertson & Empey's old stand—Jas. Hennessy, Dealer in Bankrupt Stocks. ddkw

Dismissing.

The stench which arises from the cells is annoying and disgusting now as at any previous time. This nuisance penetrates into the City Clerk's office every day, almost compelling the City Clerk to leave his office locally, in spite of all attempts at ventilating the apartment by opening the windows. The work of removing the cells was authorized last year. It is again being talked about, and the sooner it is carried into execution the better.

The 17th Battalion.

The officers of the 17th Battalion have received a letter from the City Council for a grant of \$200 per annum to assist in keeping up the regiment and maintaining the band. If the state of finances will permit, a grant ought certainly to be made, as besides the sum drawn from the Government the officers are at heavy expense in maintaining the efficiency of the regiment, which is now a credit to the city.

Police.

The Police Commissioners have in deference to the wish of the citizens, expressed through the City Council, resolved not to increase the number of officers employed at present. They have, however, been to increase in the salaries to the amount of \$500 per annum on the whole, the Chief receiving an advance of \$100 per annum.

Inquest at the Institute.

The Institution for the Deaf and Dumb, which has since its opening, enjoyed a remarkable immunity from disease, has been visited within the last two or three days with some sort of low fever which has prostrated some fifteen or twenty pupils, and we were to learn, resulted fatally to four of those attacked, two deaths having occurred on Sabbath last. It has been alleged that there is some local cause for the prevalence of this disease—some attributing it to over-heating the building, others to the cold weather, and others again to impure water. With a view to ascertain the true source of the disease, it has been deemed advisable to hold an investigation, and in accordance with instructions received from the Government, an inquiry was begun last night on the body of Mark Reid, before W. H. Fenton, Esq., Coroner, and the following jury: C. V. Rogers, James Galt, Hugh Wallis, Wm. Galt, George Gilman, W. J. Hudson, George Walker, Edward Linn, W. E. Garratt, John C. Lake, John L. Lattimore, C. Lamborn and John Bell.

After some evidence had been heard, the inquest was adjourned until today at 3 o'clock p. m., when the jury would proceed to view the source of the water supply and the place which is supposed to be contaminated by the sewerage, and whence the infection is believed by some to have arisen.

Tea Meeting at Tweed.

A very successful Tea Meeting took place in the Methodist Church, Toronto, on the evening of the 3rd inst. The proceeds of the affair, which were \$100.00, were for the benefit of the Toronto Bazaar. The funds realized went to pay off the debt due on the Bazaar building to Tweed Credit. After the good thing had been disposed of, the Rev. Wm. Seaton (pastor) took the chair. On the platform were the Rev. George Young, President of the Toronto Conference, Rev. Wm. Hewitt, of Bridgewater, and Rev. James Salter, of C. M. Mission, at Tweed. The Rev. Salter called on the choir for a piece of music, which was rendered in capital style; then introduced the speaker of the evening, Mr. F. Young, who entertained the company for about two hours, his subject being The Far West. The Rev. lecturer in his previous lecture described the North-West from the time King Charles granted a charter to Prince Rupert and the Hudson's Bay Company in 1670, down to the time the Province of Manitoba was taken possession of by Colonel Wolley and the Royal Canadian Mounted Police. The Toronto Tribune.

We have received a well assorted Crayon Lithograph published by the Toronto Tribune, the paper belongs to this country, which is being presented by the publisher of the Toronto Tribune to all the subscribers to that paper.

Fur Spoils.

In a moment of forgetfulness, one of Mr. Geo. H. Haymes' sons, who closed that gentleman's fur store last night, left two buffalo robes and some other skins hanging outside the shop door. During the night the articles thus exposed were all stolen, entailing a loss of \$60 or thereabouts upon their owner.

The History of Curling

Though ringing is so eminently a Scottish game, evidence goes to prove that the game was brought to Scotland from the continent. In the 15th century, three hundred years or so, some writers have tried to claim for it (indeed a native origin, or at least one lost in the mist of antiquity, citing the fact that the word "Fingalian" comes from the Gaelic word "Fingal" because in one passage it was said "Swan bends at the stone of night" and that at the "understanding, it is quite clear that at the time of the game, the players were outsiders for the first rough sketches of the "roaring game. The technical language of the game is all of low country origin. The "roaring game" has been introduced into Scotland by the Scotch emigrants who settled there about the end of the 16th century. No mention of it is made by any writer for long after this; but much later, in 1840, when the first edition of his "Britannia" published, it was said that in the little island of Copinagh, near the Orkneys, "are to be found great numbers of the roaring game."

At this time and for long after, the game appears to have been merely a rough kind of quoting on ice; indeed for a great part of the last century its common name in the country was kutting. The stones of that day, rough undressed blocks—so different from the polished missiles now used—had no handle, but merely a kind of hollow niche for the finger and thumb, and

overtly intended to be thrown for at least part of the course. Since those days, great strides have been taken in the improvement of the game; now it is highly scientific, with its many delicate strokes, its "wicked" calculations of angles, of force, and of bias. It may without presumption be called the billiards of ice. In some places, however, the old game with its primitive implements of usually flatish stones from the bed of

In the head roll of curling are no so mighty names as those that golf boasts this Winter game has not got mixed with historic events and personages, as older pastime has; but what her devoted lack in greatness is made up by the intense affection shown by them in all ages for their favorite sport. It appears to have

been a great game with poets. Allan Tate and Burns allude to it, and a host of minor bards have sung its praises at varying lengths, but with uniform appreciation of its excellences. One of the most excellent passages in Christopher Norwood's "Winter Rhapsody" deplors the fading popularity of the game in his latter days, for like many other good things, curling had its ups and downs in the world.

some few districts where it once flourished for a time, the interest in the game died out; but of later years the establishment of so many clubs has given a impetus to the game, which now prospers in its season beyond all former experience. The south-western districts of Scotland were long the chosen home for curling, the players of Lanark and Dumfriesshire were specially renowned for their great skill in the game, but now it has become

the whole country, and the grand master of the Royal Caledonian Curling Club, near the friendly rivalry of worthy foes from Maidenkir k to John O'Groat's, excite the enthusiasm of branch clubs south of the Tweed.

To the discredit of your race!—though of course, on a sketch model—I would gladly have borne public testimony had not my tongue been tied by relationship, which, in the eyes of some people, might have deprived my opinion of its usual authority."

City and Vicinity.

PATHEBY'S DOMINION NOTES.—The March issue of this useful little publication has been received.

WOMEN'S CHRISTIAN TEMPERANCE ASSOCIATION.—Members of this association are requested to meet at the residence of Mrs. E. W. Holton, on Thursday March 7th, at 3:30 p.m.

DESCENDING VIEW.—An exhibition will be given tonight, in the Lecture Room of the Bridge Street Church, proceeds on behalf of the Sunday School. Admission 10 cents.

NOR STOLEN.—Those furs at Haynes were not stolen, after all. They were recovered by Mr. Haynes on Monday night, and put by him in a safe hiding place, as a joke upon his son.

INTERVIEW.—Messrs. Campbell & Co. have made an addition of thirty feet to their freight shed, in which will be located the office of the firm and a waiting room for passengers by the various stations.

THE FISH TRADE.—A heavy business is being done in fish here at present. Messrs. Leavens, who are the principal buyers, shipped last week 6 tons, and already this week they have shipped 5 tons.

RAILWAY GUIDE.—Chisholm's Railway and Steamboat Guide for March has been received. It can be had at all railway stations, and is an almost indispensable companion of travellers.

SP-PORT family fare at \$5.00 per 100 lb. at H. Corby & Son's four and feed store. They also sell all kinds of feed at proportionately low rates.

FIRST OF THE SEASON.—Eleven cases direct of the latest American hats and caps, and 5 cases of the latest English stuffs and cloth hats at Hymans's, opposite Consolidated Bank.

SUSPENDED.—Constable Mahon was suspended last night by the Chief, and has been relieved from duty until the charges against him are investigated. Constable Rankin has been censured by the Commissioners for allowing a prisoner to escape from the cells.

BILLS SETTLED.—It will be seen by advertisement that the annual meeting of the Belleville Branch Life Society, will be held in the Town Hall on Thursday evening, when addresses will be delivered by Mr. W. Ross, of Toronto, and Mr. J. M. Smith, of Montreal.

PRIZE OUT.—Capt. Selles has begun the work of fitting out the ferry destined for Prince Edward for the season's trade. One coat of paint has already been given to the boat, which will be repainted and made neat and clean throughout. Messrs. Palmer and Bonar were to commence work on their trip to the Erie River, today.

GRAIN IN STORE.—The quantity of grain in store here this season is larger than has been known for many years past. Messrs. W. H. Campbell & Co. have about 60,000 bushels in store, and elsewhere there is stored probably not less than 7,000,000 bushels. Receipts of late have averaged about 1,000 bushels daily.

MEMBERS WANTED.—The County Attorney of the County of Ontario offers a reward of \$100 for the apprehension of George McCulloch, against whom a verdict of wilful murder was returned by a coroner's jury for the killing of Joseph Ballman, a member of the County of Ontario, on February 15th. McCulloch is described as being about 5'7" inches in height, with ruddy complexion and stout.

THE FAY.—Prospects of an early opening of navigation are at present highly favorable. The ice up the lake is reported bad, and near Ferry Point there is said to be some open water. Teams drawing heavy loads of wood are getting out, and a teamster who made the passage this morning with a light wagon and a team of horses, expressed the opinion that it would probably be his last venture this season, as the ice looks dangerous.

Daily Intelligencer.
Hard on the Poor Fellow.

"Sam McLaughlin, who was discarded last night, and Justice—
The Police Court yesterday is a picture before him.

"Don't you believe him, Judge," cried a woman sitting in the court.
"I have not," replied McLaughlin, "an old man's word; but you must mind what she says, Judge."

"Sam," said his honor, gravely, "the offence with which you are charged is a very serious one, and you therefore deserve to be severely punished. The sentence of the Court is, therefore, that you go home with your wife."

"Oh you Honor," remonstrated Sam, "don't be so hard on a poor fellow. Make it ten days."

"But his Honor was not to be moved, and Sam walked out of the room on a shaver's arm, his wife waiting for him in the street.—N. Y. World.

Busted in Business.
The other evening a very polite darkey made his bow to one of the editorial staff of this paper, and the proprietor remarked:

"I know it's kind of cheeky to ask it of a white man, but I'm in a bit of a hurry, and I don't want to wait. I want to know if you can get me a copy of the 'Daily Intelligencer' for a week."

"What is your business?"
"I'm a jobber and whitewasher, sah. I'm in a bit of a hurry, and I don't want to wait. I want to know if you can get me a copy of the 'Daily Intelligencer' for a week."

"Why are you like a white man, sah? Because I'm always like to get on the highest road."

"An irrepressible fellow, in selling his horse, said: 'He's a good wares, but he's a good deal more than that.'"

"Our butcher," said an old lady, "never has any venison in his shop, but he always has a piece of my meat."

SWORN EVIDENCE.
The following Court is probably the most remarkable ever witnessed by any mortal.

"I am a poor fellow, and I am in a bit of a hurry, and I don't want to wait. I want to know if you can get me a copy of the 'Daily Intelligencer' for a week."

BELLEVILLE, THURSDAY, MARCH 7.
PARTY ORGANIZATION.

As every indication in the political sky points to the occurrence of a general election for the House of Commons within a few weeks, it becomes the duty of the Conservative party to thoroughly organize for the fight. Great anxiety is being felt upon the forthcoming struggle, as by the result of these elections will be decided the momentous question whether the country is to be ruled for the next five years by a party of peace and corrupt administration which refuses to make an effort to relieve the depression in trade under which the Dominion at present suffers, or whether they are to be replaced by men who are skilled in all the details of statecraft, and who have pledged themselves to take those measures which common sense dictates should be resorted to, in order to better the condition of trade, and all the various authorities which the people of Canada are engaged.

The election will probably be held in the month of June, as that season will be more convenient to the farming community than any other time during the summer or early autumn, and as the various authorities desire that the election should be held previous to the departure of the present Governor-General, who will probably depart from Canada early in the month of September.

Although greatly disheartened at the seeming certainty of impending defeat, the supporters of the Government are, with characteristic energy, doing all in their power to array their strength in as formidable a fashion as possible, and that they will "die hard" their previous record places beyond doubt.

The opponents of the Government are also showing a good deal of energy, especially in the western provinces. But we should like to see our friends in the central and eastern sections more energetic than they have been, in perfecting local organization, that is Township organization, to which there has not been so much stimulation paid as is desirable.

The outlook is the most promising character, Quebec, Nova Scotia, New Brunswick and the lesser provinces are all in a large majority in favor of the Conservative party, and it is therefore to Ontario that the Mackenzie men pin their hopes; but in this Province, there is good ground for belief that a majority will be secured in favor of the opponents of the Government. In over-confidence also there is no danger to the Conservative cause, and it is to be hoped that there will be no regrets to express on this point when it is too late, therefore it is that we urge a closer attention to organization, without which the strongest party may be surprised and defeated.

The feeling in the Counties of Hastings, Prince Edward, Lennox, Addington and Northumberland was never more favorable than it now is towards the Conservative cause, although the counties included in these counties being (except Lennox, which is doubtful) to return supporters of Sir John Macdonald. Even from Lennox, which has been regarded as Mr. Cartwright's pocket borough, the advice is more cheering, indicating that should the Minister of Finance succeed, it will be by a smaller majority than he has ever obtained before. At the same time, no chance should be thrown away, to the profit of our opponents. The contest is now at hand, and the work of selecting candidates and perfecting organization cannot be entered upon a day too soon.

The Quebec Crisis.

Montreal, March 6th.—It is reported here that Hon. Mr. Holton will be asked to join the new Quebec Cabinet. Mr. Holton is called on to join also, but with Judge Cameron has peremptorily declined.

Montreal, March 6th.—There is a report that Hon. Mr. Archibald McLean, who is to form a Quebec Ministry, Mr. Joly giving the task as hopeless.

Quebec, March 6th.—Mr. Joly is still unwell and cannot form his cabinet. It is said that the Rouge faction at Ottawa, and the fact that the House and Senate are dissolved, Mr. Holton refused to enter the Government, as the Provincial Secretary, as the Hon. Thomas' church, who passed himself off here as the Hon. Mr. Anselmy. There is not the slightest connection between the two, except in so far as concerns their success in pulling out the unfortunate Belleville.

CLYDE COVET.—A special meeting of the City Council is to be held to-morrow morning at 8:30, to consider the desirability of sending a delegation to Ottawa, with the view of securing the erection of a public building here, and a grant in aid of harbor dredging, also to attend the funeral of the late James Grant.

V.) on Sunday the 10th inst., as follows: Morning and evening services at the usual hours. Afternoon service at 3 o'clock p.m. The Lord Bishop of Ontario and the Venerable Archbishop of Kingston will preach.

BEFORE STOCK TAKING, James Hendry wishes to clear out all the odds and ends of Dress Goods, Shawls, Cloths, Flannels, Hosiery, Prints, Cottons, Stems, Lungs, Hosiery, Gloves, Scarfs, Towelling, Towels, Table Linens, &c. &c., of James Robertson's Bankrupt Stock, at whatever prices they will bring, before taking stock.

THE ADJOURNED, Robertson, Esq., of the old stock, at James Robertson, Dealer in Bankrupt Stock.

FOR THE LITIGATORS.—Mr. J. W. Langmuir, Government Inspector of Prisons and Asylums, who visited the Institution for the Deaf and Dumb yesterday, reports as follows: "The reports of the officers of the Institution are very satisfactory. They have been much exaggerated. There have been only two cases of fever which only a typhoid form, three of which, it is to be regretted, terminated fatally. I find that there are only seven cases of fever in the Institution, and that the treatment to-night, out of a population of two hundred and fifty, only two of whom give the Institution physician, Dr. Hope, any uneasiness. The number of sick is lower than it was at the corresponding period of last year."

A PECULIAR CASE.—A contemporary says: "Last week a very peculiar case of difficulty was brought before a magistrate. The case was as follows: It seems that the body of a school teacher, Mr. J. in Sandwich West, at a meeting of ratepayers of that section, on the 10th of January last, was elected by acclamation for a three years' term, and having been elected by the chairman of the Board to that effect, and to come and make his declaration of office before him (the chairman), he refused to do so, which refusal was contrary to the School Act, which requires each schoolmaster to make the oath of qualification within fourteen days. He did not endeavor to make the charge, and as the case was clear against him he was fined \$5 and costs. This is a peculiar case, the trouble being in this part of the country and the gentlemen in the office to which they have been elected, but to get those out who have improperly assumed public positions.

LENNOX AND ADDINGTON.—An entertainment for the benefit of the poor, given in Napane on Tuesday night last, netted only \$15.

FOUR MORE HILLIERS IN ADD'G.—Four more Hilliers in Add'g have been convicted of contravention of the law, and the case of another is under consideration by the Justice.

MAPLE SPRING.—A bill has been introduced in the House of Commons, to amend the law relating to the duties of the Customs.

MR. EMBURY, Town Clerk of Napane, has been relieved of his disabilities, and has resumed the duties of his office.

How many wives of male housekeepers even one dollar a week to spend exacting their choice? No questions asked, as who does not know more genuine satisfaction can be gotten out of one's occupation than from ten dollars' worth of money wasted than from ten dollars' worth of money necessary? The male housekeeper ways deal with the hooker and customer.

so always carries that curse to economy, grocery book. Thus the wife is forced to trade at one or two particular stores, where they have not the articles required, she must do without them. How infinitely better to set aside a certain amount, be it ever so small, accordingly to the head of the family, for household expenses, and let the wife manage it her own way. Ninety-nine times out of a hundred she will make it go farther than the man can. Then no more pinching, contriving and cajoling; no more "books" at butcher and grocers, where one is continually in debt; often purchasing what one cannot afford; sometimes paying for more than one gets, taking up with inferior goods.

if one fully had cash in hand. A wife bears full share of the common burden by duties and thoughtful management for the comfort of the family, and is entitled to share of the common fund, which division should be just as cheerfully rendered by head of the firm as with any other partner. These are all the "rights" which true work require.

"Can't Rub it Out."

"Don't write there," said a father to son, who writing with a diamond on the down.

Did it ever occur to you, my child,
you are daily writing that which you can
rub out? You made a cruel speech to
mother the other day. It wrote itself
her loving heart and gave her pain.
there now and hurts her when she thinks
it.

You can't rub it out.
You wished a wicked thought one day
the ear of your playmate. It wrote itself
his mind, and led him to commit a wicked
act. It is there now; you can't rub it out.

All your thoughts, all your words, all
acts, are written on the book of memory.
careful: the record is never lasting.

An Esquimaux Wedding.

Shortly there entered, in perfect silence, a cortege drawing a dog sled, in which was the high priest of the tribe, and a more vicious looking object I never beheld. He was stripped to the waist, and smeared with red and coloring matter in stripes, which gave him the appearance of a Chinese joss. On his head was a tiara of bears' claws, surmounted by an enormous polar bear's head. On his shoulders were placed erect on each side two walrus tusks, fancifully decorated with red and black, which had been obtained

The lower part of his body covered with other skins, over which spread a number of young seals, all alive barking. In the right hand he held a which he waved aloft in a theatrical manner while with his left he motioned to the and groom to approach him. The whole course arose, and with shouts of glascared around the priest's chariot. He submitted to for a space of ten minutes, then, imperiously waving his spear, comended silence. The groom was now directed prostrate himself upon the earth on his and the bride directed to place her right upon his throat, which she evidently did

He was instructed to lead the groom that was to be slain to the altar, trodden under foot by men, should ever prove untrue to his plighted troth. He was then permitted to rise, and directly approach the old chief, who placed a spoon in his breast, telling him it would be his to eat should he ever prove untrue. He was then directed to his father, who, producing a file, informed him that he would choke to death his offspring should he prove unfaithful. Then, to cap the climax, he was directed to face the entire tribe, who, brandishing spears, yelled at the top of their voices in vengeance on him in the event of unfaithfulness. At this juncture the groom apparently overcome with emotion, dropped on the ground.

raised to his feet by the bride. "I will be true."

Gems of Thought.

The truest end of life is to know that which never ends.

It is not until we have passed through furnace that we are made to know how a dress was in our composition.

They who are the most weary of life, are most unwilling to die, are such as have lived to no purpose—who have rather braved than lived.

Preserve your conscience always soft.

Flatter not thyself in thy faith to God; thou wastest charity for thy neighbor; think not thou hast charity for thy neighbor if thou wastest faith to God; when they both wanting; they are both dead, if divided.

It concerns all persons to see that they try their utmost to find the truth, and, if they do, it is certain that, let the error be ever so damnable, they shall escape the misery of being damned for it.

The history of the world teaches no lesson more impressive solemnity than the

The old church that does not teach doctrine, that is, that does not seek new conceptions of truth, and new methods of statement and of teaching adapted to the changing conditions of mankind, ceases to be the Word of the Lord and becomes his coal-bed.

Mingle the fear of God with business will not abate a man's industry, but serve it; if he prosper, he is thankful to God for it; if he poorer, he is thankful to God for giving him power to get wealth; if he carry, he is patient under the will and dispensation of the God he fears. It turns to a King.

BELLEVILLE, SATURDAY, MARCH 9.

City and Vicinity.

BOARD OF EDUCATION.—A regular meet-
ing of the Board will be held on Tuesday
night.

POLICE COURT.—The record to-day, for
the third day in succession, was "no busi-
ness."

THE MARKET.—Despite the bad roads,
the market was largely attended and fully
supplied.

COUNTY COUNCIL.—The Council will
meet on Tuesday at 2 p.m. It is not pro-
bable that the session will be a long one.

For sheepskins, with cold entrance.
NARRATIVE JAMAICA GUYBINE

PERSONAL.—Dr. R. F. Bonn, of Halifax,
is in town, looking well and hearty.
His many friends may be glad to know that
he is now the John Street Presbyterian
Church pulpit to-morrow morning.

Wm. Johnson & Co. have just returned
from the market, and open to-day forty-
seven doz. (more to follow) of boys' youths'
and men's hats. These goods have been
bought at from thirty to fifty per cent less
than the regular prices, and will be sold at
prices to command immediate sale. 11

BOREK THE ICE.—A man who to-day un-
derstood to cross the bay with a horse, was
not long in repeating of his rashness. Man
and horse had proceeded but a short dis-
tance when the ice broke beneath the
horse, precipitating it into the water. The
animal was rescued after being immersed
for about half an hour.

ENTERTAINMENT.—We would call the at-
tention of our readers to the entertainment
to be given by the Young Men's Literary
and Debating Society, and express our hope
that it may receive the hearty and cordial
support of the public. From the names of
the gentlemen taking part in the program-
me we predict a pleasant and profitable
evening.

MUSICAL.—The brass bands of the 15th
battalion and of the Oddfellows practice
frequently at night. Both organizations
are composed of good musicians, so that
the rehearsal which Belleville has de-
servedly laid under for the last three
or four years of having no efficient band
is no longer applicable, there being now two
good bands in the city.

pleted, the opening services will be held

as follows: Morning and evening service at
the usual hours. Afternoon service at
3 o'clock p.m. The Lord Bishop of On-
tario and the Venerable Archbishop of
Kingston will preach. The friends of St.
John's Church are reminded that a special

Woolens, Prints, Cottons, Steam Looms,

prices they will bring, before taking stock.

old stand.—Jas. Hennessy, dealer in Bank-
rupt Stocks. d&w-t

FINE WEATHER.—Never has there been
finer weather in the month of March in
Canada than is now being enjoyed. The
classes are, however, injuriously affected,
namely the lumbermen, who require snow
in order to get their cut of logs to the
water, and the ice dealers, whose crop is
short, owing to their being too late in be-
ginning to harvest. These latter are,
however, making the best use of their time,
many men and teams being engaged in cut-
ting, drawing and storing ice.

SMALL-POX.—The Kingston News says:—
"A virulent type of this infectious dis-
ease is said to be prevalent on Antwerp Is-
land, seven deaths resulting from it in that
municipality within a short period. Our
informant states that the authorities have
not taken the necessary precautions to pre-
vent the disease from spreading communi-
cations between some of the infected houses
and a neighboring town being frequent.
This matter should receive prompt atten-
tion, and the isolation of the infected as-
sured."

DEDICATION AT MILL POINT.—The Nap-
esians have just held the dedication of the
new St. E. Church, at Mill Point, took
place on Sunday last, Bishop Curran
preaching in the morning, Rev. Prof.
Baldwin of Albert College, in the afternoon,
and Rev. Dr. Hartley in the evening. The
congregation at each service filling the
church to its utmost capacity. The edifice

cost between three and four thousand dol-
lars, of which a remaining balance of
\$2,000 was fully provided for at the ded-
ication services, with an surplus of about
four hundred dollars. Rev. A. Moore is
the efficient pastor of this growing con-
gregation."

M. E. CHURCH.—Professor Karl Richter,
of Albert College, will preside at the organ
in the M. E. Church to-morrow.

The new hats just received at Wm.
Johnson & Co. to-day are nearly all this
season's goods: part of hats, however, are
last year's goods. The new hats all been
bought at prices that we have never be-
fore to buy for before. 11

FIRST OF THE SEASON.—Eleven cases di-
rect of the latest American hats and caps,
and 5 cases of the latest English stiffs and
cloth hats at Hymans', opposite Con-
stant Bank. 11

SERMONS.—Mr. Hugh Roddy, B. A.,
from Coleridge, will preach to-morrow
morning and evening in the Congregational
Church. This will be an opportunity to
hear something special in the ser-
mon. 11

The "Utica" A-Trenton correspond-
ent writes:—"The steamer Utica is under-
going repairs in anticipation of running
her old route at an early day. At the pre-
sent writing the main channel of the river
is open as far down as the falls of the
sawmill, and for several days past the ice
below Mill Island has been unsafe for
travel and is just disappearing altogether."

SHOPS OF SPRING.—Corner holders, Rob-
inson, Crows, Florida, Ash, Maple
sugar, Spring bounties. Dry goods boxes
and house vegetables. Mr. Thos. Alderman.
Assessors, Chills. Blue coated police-
men. Lovers' rambles by moonlight alone.
Ladies. Drypells. Plumbers' bills.
Insurance agents. May and book peddlers.
Talking machines. Sun shades. Temper-
ance Meetings. Fish diet.

DEPUTATION TO OTTAWA.—At the meet-
ing of the City Council last night, the at-
tention of the appointment of a deputation to
Ottawa was again discussed. The result
was that the Mayor and Aldermen Holden,
Johnson and Brennan were directed to
visit the capital and interview the Minister
of Public Works, with the object of ascer-
taining the erection of a public building and
a grant to assist in completing the dredging
of the harbor. The deputation will leave
here on Monday for Ottawa.

SAD ACCIDENT.—The Kingston *Freight*
of the 8th inst. says: "This morning about
four o'clock an accident occurred at Ri-
dout or Kingston Mills. A brakeman
named McNeill, of Belleville, fell between
the cars, the wheels of which passed over
the right leg, mangleing it in a fearful man-
ner. The unfortunate sufferer was conveyed
to the city, and at 6 o'clock yesterday
was amputated the injured limb above the
knee. He was then placed upon a stretch-
er and carried to the Hotel Windsor, where
Hinde and Campbell very kindly solicited
for him McNeill there."

FEARFUL.—The ice has rotted so rapidly
on the bay that crossing at any point with
horses is no longer safe. The Kingston
disc is now engaged in ferrying passengers
to and from the Ferry point. About half
of the journey is performed by boat, the
area of open water being wide and con-
stantly enlarging, ever has the ice
waited more rapidly than it has done this
season, and it looks now as if the ferry
steamer might commence her trips by
Tuesday, if ready, and as if navigation
might be open within a week, for at Peter-
burg the ferry ice has been out for several
days.

VALUABLE COWS.—The town of Picton
sets a good example in the matter of
retaining vagrant cows. The *Gazette* says:
"Through the well directed efforts of our
Chief of Police the cow nuisance has great-
ly abated in Picton within the last year,
but still an occasional cow is seen prowling
around, and as this is the time of year
when they delight to browse fruit trees
they would be well for all to see that their
fences and gates are in a secure state." Cannot
the City Council be prevailed upon to do
justice to the great majority of rate-pay-
ers by amending the Cow By-law so as to
render the penalty coercive, which is the
alleged reason for allowing the By-law to
lie? If they do, the police can enforce
the provisions and the great nuisance will
be removed from our growing city.

M. J. BILLOP MAJORS.—Concerning
this lady, who is to give a series of readings
in the Opera House on Tuesday next, under
Maonic auspices, we extract the following
from a recently issued notice in the *Ottawa Citizen*
of February 23: "Mrs. Majors is the
daughter of a deceased clergyman of the
Church of England in New Brunswick, the
late Rev. John Black, M.A., and granddaughter
of the late Hon. Wm. Black, LL.D., for-
merly Speaker of the Legislative Assem-
bly of New Brunswick, and administrator of
the Government of the Province of New Brunswick.
By a sudden turn in the wheel of fortune Mrs. Majors
has been thrown upon her own resources, and
it is gratifying to witness the assiduous and
the last successful endeavor of a noble and
conscientious woman who has risen equal to the
occasion must be pleasing to her. The chair
last evening was occupied by Mr. William
Mills, Chairman of the Maonic Society, and
held Committee, who is a few well chosen
remarks introduced Mrs. Majors to the audience.
With the closest attention the audience lis-
tened to the noble and powerful voice of the
lady in her selections for the evening. Mrs. Majors
certainly sustained the high reputation she
has won for herself in the West, and was
well received by the ladies here, for she ap-
peared on Canada will ever long place her side
by the accomplished Mrs. Scott-Donnell.
In the piece called "The Owl and the Ball,"
her musical and powerful voice is in the
tragic acting in the "Maiden" was well
conceived. "Father Phil's Collection" was
the last on the programme, and Mrs. Majors,
who throughout had been most successful, re-
ceived a most enthusiastic ovation, which
she responded to in a piece called "The
Mountain Maid." The audience was so
much interested in the drama, and the face
of members of the Maonic Society, Mrs.
Majors is a lady of whom our countrymen
may be proud.

THE EASTERN WAR.
MIDNIGHT DESPATCHES.

London, March 8.—A Malta despatch says
The Channel squadron is still here awaiting
orders. The torpedo ship *Porpoise*, somewhat
bound with 1,000 shells, and the *Argo*,
outward bound for Sicily, are still here.
The *Porpoise* is the Malta sixth. Four
smaller men-of-war have gone to the Dard-
anelles and one to Crete.

The Vienna *Politische Correspondenz* pub-
lishes the following news from the East:
It is said the Russian Government has
been instructed to negotiate the peace of
the Balkan Peninsula, and the Russian Gov-
ernment at present keeps secret, but a Cabi-
net Council is said to have been held under
the presidency of Prince Charles to form a
project.

A Vienna special says: Russia suddenly
seems to object to an Austrian occupation
of Bosnia and the Herzegovina, and is pre-
paring to assist the Turks to resist it.

A Berlin special says:—The situa-
tion now seems most calm, but it is evi-
dently getting confirmation.

A Vienna despatch says: Count Andriy's
statement to the *Villets* will be to the
effect that peace can only be brought about
by an understanding between all the Powers.
The Russian Government is not prepared to
settle. She will defend the interests of
Europe with Europe, and her own interests,
if necessary, alone.

AMERICAN DISPATCHES.

New York, March 8.—In the *Vanderbilt*
case yesterday, Dr. Bennett testified that
the Commodore told him that he was a char-
acter, and believed in curing by sending a
lot of hair. Count Andriy's statement to
the *Villets* that Mrs. Vanderbilt said, "The
old man must die, I can't stand this bill any
longer," but it was excluded. Once when the
witness suggested that Count Andriy was
not to see his children, he got into a fur-
ious rage, and said, "No, damn them, they are
all bastards, except Bill."

HARTFORD, Conn., March 9.—Ex-Pres-
ident Grant is seriously ill.

CHARLESTON, S. C., March 9.—Three hun-
dred and fifty colored people are here waiting
the arrival of a ship from Boston, in which
they expect to sail for Liberia. Only time
will be taken who have means to support
themselves in Liberia six months. It is
claimed that 100,000 negroes in the South are
eager to be freed.

New York, March 9.—Washington special.
The *Trimes* says that the disposition is be-
ginning to manifest itself at Washington as to
the question of the value of the Illinois and
Indiana bonds, the ground that it was not
unanimous. The Gloucester fishermen have
sent a protest against the award to Dr. Long,
but at the same time do not advise resis-
tance.

The investigation of General Seward's
yesterday disclosed additional irregularities.
The *World* says that the House Committee
on Public Lands reported favorably on the
bill restoring to the public domain more than
125,000 acres of public lands, granted to
different States by the United States. The
public works, which lands have become for-
feited by the failure to comply with the terms
of the grant.

The *Herald* says that the eastern members
of Congress are beginning to feel the effects
of the winter. The *World* says that the House
Committee on Public Lands reported favorably
on the bill restoring to the public domain more
than 125,000 acres of public lands, granted to
different States by the United States. The
public works, which lands have become for-
feited by the failure to comply with the terms
of the grant.

Washington despatches state that a genuine
emulsion was passed in Congress yesterday
when representative Wilson, during the
debate on the bill to pay the Southern rail-
roads, exhibited a document from the Con-
federate archives to prove that these contrab-
and had been paid by representatives of the
white Portmaster General of the Confederacy.

AFTERNOON DISPATCHES.

VIENTNA, March 9.—The extension of Bul-
garia along the Danube has caused a great
commotion at Athens, since it carried out
it would terminate Greek aspirations in con-
nection with Thess, Constantinople and the
Dardanelles. The Greek Government has
been instructed to make inquiries of the
Bulgarian Government to the effect, in posses-
sion of which they have long regarded as their
rightful inheritance, a majority of the inhabi-
tants being Greek.

BELLEVILLE, March 9.—Bismarck's health has
been little improved by his vacation. He
worked nearly as hard as he had been in
Berlin and returned in no condition for work.
Nevertheless, he has accomplished a remark-
able amount of work, often with extreme
physical exertion, even suffering. So soon as
the Chancellor's substitute bill is passed, he
will take another, and this time a real vaca-
tion.

London, March 9.—It is rumored that Lord
Lyons may succeed Lord Derby.

London, March 9.—A despatch from Athens
states that the Turks are bombarding the
town of Lagonissi in Epirus.

Another district in Thessaly has revolted.
The new point, March 9.—Gold 101 to-day,
the lowest since the suspension of specie
payments.

New York, March 9.—Pines—The long
bridge of the Pennsylvania Railway across
the Hudson River has been completed. It
will cost \$100,000. The steamer *Colonel* at
what at St. Louis, Iowa \$12,000. O. H.
Horse's residence, Methuen, Mass., lost \$300.
Lancaster, March 7.—Arrived, the City
of Brussels from New York.

duce and merchandise to a very great ex-
tent.

OLD RAILS.

In the discussion in the House of Commons on Monday, on the subject of the proposed bill to railways in the Maritime Provinces, the practice of the Government in purchasing support was explained as follows:

Mr. Bennett, after reading the resolution of the Premier providing for a disposition of the rails, gave an account of the bill, in which he said that the Government intended to use the rails for the purpose of keeping them in the hands of the people, and that he would not support the Government if the rails were not given to the people.

The Lake Superior Terminals Job.

The Kaministiquia land job is being investigated by a Committee of the Senate, and although the investigation has just begun, the evidence shows that the charges of jobbery are well founded. The first witness called was Robert Wilson, one of the railroaders, who stated that the committee in deciding the value of the lands had not taken into consideration the increased value of the lands in consequence of the railway, but the value prior to the location of the road, was not applied to the lands valued; that he would not have given the same value if the land had not been a likelihood of the railway being located there. As to the notorious Neelands Hotel, he said, in reply to Mr. Atkins:

A. The intention was to pay the actual cost of the building with \$2000 charged for services. The work Mr. Brown furnished the accounts, I received them, Brown, Oliver and I looked at them. The last mentioned was living in the building at the time.

Q. Who were the stockholders?
A. I know. There were very few. I understand that Oliver and Davidson were, and J. J. Macdonald. I understand that Brown was interested in the company.

Q. What kind of a building was it?
A. It was a very ordinary structure.

Q. Was it not a substantial building?
A. No, it was under the impression that it was the intention of the Company to build a stone foundation under it. It seemed to be a Provisional building.

Q. Did they build a stone foundation under it?
A. A portion of it.

Q. The building was unfinished?
A. There was a very little of it finished.

Q. Was there a cellar under it?
A. There was a cellar about sixteen by twenty.

The accounts of Oliver, Davidson & Co., in connection with the hotel, were then produced. Mr. Yell, in examining the accounts, pointed out that \$200 was charged for two lots of land, and that the general account, while the same lots were charged for again in the account for lumber, was not charged for twice.

The Committee then adjourned. This is a pretty good day for one day's developments. Doubtless much remains behind.

Lumbering Operations in the North.
The Napes Standard says: "We are indebted to a reliable source for the following information: Almost all operations have been suspended and the men discharged, excepting a few drivers. A great many logs are still in the woods, the snow having disappeared before they could be gotten out. The rivers and lakes are very low, and the logs floated a great many will be lost this year, as they will not be carried down to the mills."

Messrs. Rathbun & Sons are the largest operators and have a large quantity of logs out, but the prospect of getting them down to the mills is poor.

Hon. Bill Plint has gotten out 40,000 standards, on a contract for Rathbun & Sons, and in excess of that has cut between 40,000 and 50,000 pieces which are yet in the woods. He has a gang of men working in cutting them and splitting the bark so as to prevent them becoming worm eaten.

Messrs. Plint and Holton, of Belleville, have gotten out 7,000 pieces, and 3,000 still remain in the woods.

Messrs. Suberland and McCullum, of Carlton, have 5,000 pieces in the woods. Mr. Suberland, of Belleville, has a large number of pieces in the woods. His shanty broke up early.

Mr. John Hurst, of Bridgewater, jobber for the Messrs. Rathbun, has about 11,000 pieces in the woods. Dennis Stearns, of Jeddah, also jobbers for Rathbun, cut about 3,000 pieces, half of which remain in the woods.

Messrs. Buck and Stewart have 300 pieces of squelcher in the woods, and Mr. Buck, on a contract got out 1,500 pieces of hemlock, and has 800 more in the woods.

Mr. Gilmore, of Trenton, had a large shanty with a few logs yet to get out.

The Year Without a Summer.

An aged resident of Hartford remembers that the winter of 1829-30 surpassed this in mildness. Farmers ploughed every month of the season, and no snow fell until February 23. The winter was followed, however, by a cold, backward spring, with a snow storm in May, which killed the rice.

—As an effect to the above story, one of the old residents of Derby tells us the year 1829-30 was a "year without a summer." Old New England farmers refer to it as an "eighteen hundred and thirty year." January was mild, as was also February, with the exception of a few days. The greater part of March was mild, and the weather was so warm that the ground was frozen, and the corn was killed. Frost, ice, and snow were common in June. Almost every green thing was killed, and fruit was nearly all destroyed.

—The first frost in New York, New England, and parts of Pennsylvania, and corn was nearly all destroyed in certain sections. In August ice formed half an inch thick. Corn was so frozen that a great deal was cut down and dried for fodder. Very little ripened in the New England and Middle States. Farmers were obliged to pay four and five dollars a bushel for corn of 1815 for seed for the next spring's planting. The first two weeks of September were mild; the balance of the month was cold, with frost and ice. November was cold and blustering, with snow enough for good sleighing. December was quite mild and comfortable.

—The steamer "Belleville" from Montreal, Ont., has arrived at Owen Sound—the first of the season.

—The Montreal Star claims the largest circulation of any newspaper in the Dominion—16,000 daily and 31,000 weekly.

—A bust of the Rev. W. H. Tilley, executed by paralytic Wood, was placed in St. James Cathedral, Toronto, shortly.

—Sir James Carter, late Chief Justice of the Supreme Court of New Brunswick, died on Sunday, aged seventy-three.

—About thirty men are to be sent to the representative to the Vatican.

LOTTERY SWINDLER.—The Postmaster-General has introduced a measure into the Dominion Parliament, to give him power to deal with the lottery swindlers. A Little Spending Money.

Many men who dress their wives splendidly,

and give them fine houses and allow them

to do as they please, and who are not, after all,

really, generous to them.

I know women who are apparently very

generous to their husbands, and who are not,

after all, really, generous to them.

They can have nothing without begging for

it; and when they have got it, they are not

grateful for it. They are not, after all,

RELLVILLE, MONDAY, MARCH 18.

AFFAIRS IN THE EAST.

Russia appears determined to play a winning game in eastern Asia. Although openly professing to be willing to submit her pretensions, as expressed in the treaty of San Stefano, to the Congress of Europe, she is in reality preparing to force her will upon the weaker nations of the East. In all their details, she is quietly preparing to seize upon the Turkish empire and the city of Gallipoli, which she has been engaged in occupying the numerous villages in the vicinity of Constantinople, which is now in her power to seize at any moment, thus barring the entrance to the Black Sea. At the same time, she is strengthening herself in a position favorable for the seizure of Gallipoli, the key of the Dardanelles. Thus it is apparent that Russia means only to go into the Congress as a form, being prepared to stand in the most advantageous position possible for maintaining her conquests, provided the decision of the Congress be as she cannot accept. Such warlike proceedings, following on the conclusion of a treaty of peace, are certainly ominous for the future, and that they are especially directed against Great Britain is perfectly apparent, all the Russian movements being directed to the acquisition of the city of Gallipoli, which would give her the object of opposing the operations of a naval character, in which, of course Great Britain's principal strength lies, and in which she would be necessary to be the principal actor, no matter what combination might be formed against the Muscovite in case of a declaration of hostilities.

Russia is certainly a formidable adversary, as from a detailed account of the distribution of her forces, recently published, it appears that she has still intact in the interior of the country, and in the vicinity of the coast, 125,000 men, 15,000 cavalry, 12,000 infantry, 12,000 cavalry, and 700 field guns. In addition to these, she has 100,000 men in process of formation, and 120 local battalions are being mobilized to occupy the Polish provinces of the Empire. The army on the Balkan peninsula comprised at the time when the armistice was agreed upon—exclusive of the 100,000 men, the artillery, the train, the administrative services, detachments of sailors, etc.—25 divisions of infantry, with 1,200 field guns, 3 brigades of rifle, 10 divisions of cavalry, with 200 horse artillery guns, or, altogether, 324 battalions, 240 squadrons, and 1,400 field pieces. Assuming the average strength of each of the above units to average two-thirds of its prescribed war establishment, the aggregate effective of this army would amount to 200,000 men, 30,000 horses, and 1,400 guns. In the Caucasus there were at the same time 20 divisions of infantry, comprising together 22 battalions and the Kuban and the Terek Cossacks, or about 25,000 men, 1,000 horses and 150 guns; and finally, in Armenia there were 8 divisions of grenadiers and infantry, a brigade of rifle, and two divisions of cavalry; representing an effective of 75,000 infantry, 1,000 cavalry, and 372 guns. Altogether, therefore, it is calculated that, including both the armies in Europe and in Asia, Russia can dispose of a force of 440,000 men, 78,000 cavalry, and 2,722 guns, or if the special and auxiliary services are added a total of 750,000 men.

Formidable as is this array of force, however, Great Britain will not hesitate to encounter it, if her interests and her honor are imperiled, and it is to be regretted that she has not been more active in the past. Never in the history of the world has so overwhelming a power been at the command of any power—a question if all the world combined has ever before assembled so mighty a maritime force, as that which Great Britain now possesses. The British army, too, is now more numerous and more highly trained than ever before, though lacking in experience, which would soon be gained; therefore, Russia, vast as her armament is, is not an overmatch for Great Britain. Whilst the Russian aggression noted above are not observed with uncommon, the British Government are fully prepared for the emergency, and are to be congratulated for the fact that they are not over-estimating the power of the Russian army. It is to be regretted that the British Government are not more active in the past, and are to be congratulated for the fact that they are not over-estimating the power of the Russian army. BELEVVILLE, TUESDAY, MARCH 19.

City and Vicinity.

BOARD OF EDUCATION.—The Board will hold a meeting this evening, pursuant to adjournment.

RAIL.—Jupiter Flavin is in the second again, his operations making fine time for those who have to make it.

The demand for those New Hats which Wm. Johnson & Co. have at thirty to fifty per cent below regular prices, has been so great that they are compelled to visit the markets again this week.

PERSONAL.—Mr. Geo. Stewart, Jr., of St. John, New Brunswick, the well-known author, who is now connected with the Rose-Belford Publishing Company, is in the city.

FIRST OF THE SEASON.—Eleven cases direct of the latest American hats and caps, and 5 cases of the latest English stiffs and cloth hats at Hyman's, opposite Consolidated Bank.

SPRING PROCEEDING.—Farmers are at work in many parts of the section, and are doing their spring ploughing.

A large stock of New Silk Hats at Wm. Johnson & Co's., at following prices: 83 Silk Hats for \$2. 84 Silk Hats for \$2. 85 Silk Hats for \$2. 86 Silk Hats for \$2. 87 Silk Hats for \$2. 88 Silk Hats for \$2. 89 Silk Hats for \$2. 90 Silk Hats for \$2.

PICNIC DAY.—We are informed that Picnic Day is usually celebrated on the 19th of March, and it is expected that the first boat for Belleville will start on Monday next.

THE EXCURSION TO MONTREAL.—The cheap excursion on the Grand Trunk to Montreal took place to-day. The train was of the usual length and the cars were well filled. Some twenty or fourteen persons from Belleville took advantage of the reduction of fare.

POLICE.—The Police Commissioners met yesterday afternoon, but did not make a selection from the twenty-five candidates for the office of police constable, all of whom were subjected to an examination as to their educational attainments. The appointment would probably be made this afternoon.

An inquisitive public want to know how Wm. Johnson & Co. are selling New Hats at the prices they are offering them, the answer is a very simple one, they "bought them cheap." See windows for prices &c.

W. T. A.—The open meeting of the Workmen's Temperance Association, which is to take place in the Marble Hall to-morrow night, promises to afford an agreeable evening's entertainment, for the small admission fee of 10 cents. The programme will be made up of readings, recitations and music by amateurs of known ability.

GRAND CONCERT.—The Society of the Sons of St. Patrick celebrated their national anniversary by a grand concert in the Marble Hall to-night. The choir was composed of Mr. Eugene McMahon, President of the Society, and seated on the stage were the Rev. J. B. Jones, the Mayor, representatives of the sister Societies and a number of other gentlemen. After patriotic addresses by the chairman, the musical portion of the programme was commenced with piano solo by Prof. Dwyer, following which came songs by Misses O'Connell, Wilson, Howell, and Stewart, and Messrs. Keally, Dwyer, Down, Radford and Costello, all of whom acquitted themselves admirably. Interposed between the musical selections were addresses by Messrs. J. McGinn, John Kelly and Prof. Dawson, who did not share the same devoted to them, and Prof. McGinn also gave a reading of good style. The entertainment concluded about 10:30 by the singing of the national air.

COPY BOOKS.—At the last meeting of the Board of Education, it was recommended that some discussion be held on the copy book question, and that the general view in the city schools of Healy's head line copy books was recommended, the suggestion of this Committee on School Appliances must be made to the copy books in question, copybooks failing to command the support of the majority of the Board. One reason of the failure to assent to the suggestion of the committee was that dealers had stocks of other copy books on hand, and it was to be allowed an opportunity to get rid of them. On the same night as the Board met here, the London Board of Education also held its session and adopted a resolution declining the Healy copy book.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

LEONARD, March 18.—The Berlin National Zeitung says the Austrian Government has been positively informed that the Russians are concentrating on the Austrian frontier.

A well informed St. Petersburg correspondent writes that the Russian Government is in a state that Russia will not allow interference with the points concerning the neutrality of Armenia, or Bessarabia.

A Constantinople special says—It is reported that imperial despatches from England were communicated to the Sultan on Saturday. A Council was held, which decided that the Russian Government of the 18th sent a difference between England and Russia.

A Vienna despatch says that England has decided to take part even in the preliminary conference of ambassadors held in Vienna, a formal suggestion that all clauses of the treaty will be submitted to the Congress. The Constantinople correspondent relates that the promise that the full treaty will be communicated to the powers.

A Paris correspondent says England has strongly protested at St. Petersburg against a Russian ultimatum towards the Rumanians and the Bosnians.

A Vienna despatch says the misunderstanding between Russia and England is progressing towards a satisfactory settlement.

AMERICAN DISPATCHES.

WASHINGTON, March 18.—The Illinois distillers in White and adjoining counties are reported organizing. A desperate fight with the Deputy Collectors is anticipated.

ANNEAPOLIS, Md., March 18.—Montgomery Blair offered a resolution in the Legislature directing the Attorney-General to take action under the Electoral Commission Act, and to secure a decision of the Supreme Court in favor of Illinois. Mr. Blair's resolution was referred to the Judiciary Committee.

NEW YORK, March 18.—The World's Home special says that the Pope is preparing to occupy the summer residence of the Pope at Castel Gandolfo, thirteen miles from Rome. This will put an end to the conventional captivity of the Pontiff.

THE PRESIDENT'S VISIT TO THE NORTH.—The President's visit to the North, which was expected to be a tour of inspection, is now being warmly approved of American capitalists.

Rev. Dr. Cuyler, of Brooklyn, celebrated his silver wedding last night. He was presented with one thousand new silver dollars and a quantity of silver ware.

Arrived, the 18th of March, 1878.

RIOT IN TORONTO.

SEVERAL SERIOUSLY HURT.

HOTEL WRECKED.

Toronto, March 18.—The city in comparative quiet, but towards night there was a serious disturbance on Jarvis and Adelaide streets.

There was no procession, the various Irish societies, in obedience to the request of His Honor, Archbishop Lynch, having agreed to abstain from any public demonstration of the kind.

Towards evening, however, the aspect of affairs was very ominous, and it was feared that trouble was brewing. The principal point of attraction was the St. Lawrence buildings, where O'Donovan Rossa was arrested to-night. At half past eight the crowd had become so immense as to divide into two parties, in consequence of the police pushing back the front of the mob. A second mob, armed with sticks and stones, joined the first, and the crowd was now a mob.

The crowd was now at the foot of Jarvis Street by a detachment of police but a mob took place, and in a few minutes the mob surged up Jarvis Street and formed a compact mass in front of St. Patrick's Hall.

Up to 11 o'clock the crowd persisted in forcing its way into the St. Lawrence buildings, and the St. Lawrence buildings were set on fire. The Horrors of Chinatown.

The following is the description of the horrors of Chinatown, San Francisco, as heard in the letter of a California correspondent. It is from the pen of "Burleigh," the accomplished correspondent of the Boston Herald.

To a visitor it is a marvel that an intelligent and energetic people should allow Chinatown to exist in their midst. It is a foul blot on a fair city. It is an unsanitary nuisance, look it in any way. None of the reasons given justify its continuance.

The trashy, profligate, and depraved, right under the law, do not seem to mind the fact that they are in the midst of a great city. The young Chinese—those who go out to do housework—are usually clean, healthy, frugal and capable. But the 67,000 in Chinatown are a disgrace to the civilization of the age. These people live in the worst part of San Francisco. It was once the best part of San Francisco. It was once the best part of San Francisco.

DOMINION PENITENTIARIES.

DOMINION PENITENTIARIES.

The annual report of the Minister of Justice on the Penitentiaries of the Dominion has been published. It shows that there are six penitentiaries in the Dominion, viz., Kingston, St. Vincent de Paul, John, Halifax, Manitoba, and British Columbia, with Rockwood Asylum for the treatment of insane convicts. The Warde's reports are also very instructive, and contain particulars as to the working of the different establishments under their care.

THE PENITENTIARY.

In this penitentiary at the end of the year there were 600 men and 18 women, giving a total of 700. The number of convicts has steadily increased of late years, attributed, so the Warde says, to the low rate of wages, and difficulty in obtaining employment both in Canada and the United States. Although there has not been regular contract work last year, as in previous years, still from various sources a revenue of \$23,382 has been earned outside of the penitentiary. The Warde comments on the employment of the convicts, and says that the work done in the masson department for the year amounts to \$44,344.65; in the carpenter and trades department, \$16,213.66; in the blacksmith's, \$10,600.63; total reaching the respectable sum of over \$74,000.

To properly watch over this small army, there are 30 guards and 7 keepers, besides the officers of the establishment. The total number of convicts in the Penitentiary at the close of the year was 703.

The convicts, as is pretty well known, find employment in all kinds of work, as follows:

- | | |
|-------------------------------------------------------|----|
| Stone cutters' shop | 10 |
| Foundry | 10 |
| Stock breeder's, stables, wood yard and lumber ground | 10 |
| Wash house | 10 |
| Blacksmith's shop | 10 |
| Carpenter's shop | 10 |
| Shoe shop | 10 |
| Drying room | 10 |
| Wing | 10 |
| Hospital | 10 |
| Quarry | 10 |
| Marine | 10 |
| Laborers | 10 |
| Orchard, chapel, library and recreation room | 10 |
| Masson, North, South and West | 10 |
| Military confinement | 10 |
| Preparing Compost at point | 10 |
| Farmer | 10 |

Of the prisoners convicted during the year 239 were laborers, 19 shoemakers, 13 carpenters and 10 tailors, all branches of trade and some professions furnishing criminals, whilst 12 of the men were sentenced to the penitentiary for crimes committed in the United States. 107 of the criminals were put down as temperate, 87 abstinent and 24 intemperate. The largest number of convicts—149—were between the ages of 20 and 30, while 180 convicts were under 40 years of age, and 64 under 20, and 10 over 60. The nationality of the prisoners were—Upper Canada, 116; Province of Quebec, 52; Ireland, 33; England, 41; Scotland, 1; United States, 77. The majority of criminals were—Larceny, 99; burglary and larceny combined, 31; robbery, 27; burglary, 16; housebreaking, 13; forgery, 8; murder, 8; manslaughter, 8.

Of the number sent during the year to Kingston, there were 62 received from the St. Vincent de Paul Penitentiary. The County of York furnished 49 criminals; Wentworth, 37; Welland, 12, and other counties under the latter figure. The different religious denominations were—Roman Catholic, 121; Church of England, 80; Methodist, 42; Presbyterian, 25; Baptist, 7; Jewish, 1; Lutheran, 1; Monist, 1; no religion, 8.

OTHER PENITENTIARIES.

The Warde's report from the Halifax Penitentiary shows that everything goes on satisfactorily, the discipline is excellent, and the behavior of the prisoners good. There are five guards and one trade instructor in connection with the institution, besides other officials. The convicts number 41, and the common prisoners 4. Sixty-two prisoners were received during the year, four of which number were females. The penitentiary and its inmates are valued at \$80,964.50. As in previous years, the majority of prisoners were confined for burglary, followed by theft for insubordination, desertion and drunkenness. The two first giving evidence of the military and naval characteristics of the city of Halifax.

Affairs at the Manitoba prison were also very satisfactory. There were 6 convicts in confinement at the end of the year, 6 white men and 3 Indians. The heaviest sentence was for five years, and the usual serious offences were few.

The Rockwood Asylum for the treatment of criminal lunatics is for the improvement suggested to be made to the building. The number of patients the report states to the Ministry, which is the best result, is not less than 378. The greater part of the improvements it is said will be done by convict laborers.

Political Notes.

The Senate has been laboring for some days over the financial question. Mr. Boulton attempted to reply to Mr. Macpherson, but it was a reply to his speech of last session, instead of that which immediately preceded his own. Mr. Boulton's speech delivered this afternoon was looked forward to with some interest, but though it was probably the best he has made in the Senate, it was quite devoid of interest. Several Senators are yet to speak. *—Mail & Observer Correspondent.*

THE SENATE.

Mr. Laurier's resolution removing the question of the feeble bill has been under discussion on the Senate, and afforded the Opposition a rare opportunity of showing up the inconsistency of the Government. Last year they decried the measure day on each day. This year they removed the day altogether. But this is not the only inconsistency involved in their action. For the Minister of Finance has twice denied our case that legislation in Canada can have no effect on American legislation, and yet the removal of duty is avertedly based on a desire to affect legislation in Washington. Pretty soon these talk about the inconsistency of their opposition. *—L.H.*

CURRY LUNCHEON.

The Government have not been happy in their dealing of the few bills they have admitted to Parliament this session. As Mr. Palmer said the other evening, it would take a Philadelphia lawyer to tell what the intention of the Government is, or what they are likely to mean. Mr. Miller's Kensington bill provides for a small municipal system for a sparse population, the greater part of which has but a small acquaintance with municipal government. Some members of the Opposition, the Messrs. Gibbs, Rowley, and others who have considerable acquaintance with municipal law, worked hard on Friday night to simplify the bill, but it could not be properly simplified without striking three-fourths of it out altogether. *—J.H.*

THE MEMBER FOR MONTREAL WRECK.

Poor Thomas Workman! He sits about like a shadow. With consciousness of guilt in his mind, he will not resign his seat nor yet take it. That is why, he will not take it when the House is in session. But he does not hesitate to occupy it at other times, and on the public stage he is a man of letters and do everything else a member may do as long as he really were one. Why doesn't the poor man stay away or resign? Afraid to leave his seat, because he is full well aware that he has forfeited his right to it, he should remain at his home and not make himself the butt and laughing-stock of everybody who meets about the Parliament buildings. *—J.H.*

THE PRESIDENT'S COURAGE.

This instance of intemperance still continues to drag its weary way in the courts. The Mail of the 26th says: "The Lincoln case was again before the court yesterday. Mr. Justice Patterson sitting alone. Mr. Bethune appeared with Mr. Ryker, the respondent, and Mr. Hodgins for the petitioner. At the opening of the court, judgment was rendered by Mr. Justice Patterson, deciding in favor of Jacob Bethune, Solomon Johnson, Henry Wynn, J. N. Clayton, W. Wessell, John Cochrane, Alex. Clavin, J. W. Higby, and Owen Taylor to be by Mr. Ryker in a majority of six. Several additional cases were disposed of yesterday, one being held over, three struck out, and three reserved. This new case Mr. Ryker is in a majority of six. From present appearance it is not likely that the petitioner will succeed in placing Mr. Ryker in a minority."

REPORT OF FREE TRADE.

From the London Daily Telegraph of Feb. 26th, we learn that on the previous day Lord Derby received a large deputation at the Foreign Office from the Associated Chambers of Commerce, who complained of the want of reciprocity on the part of foreign countries in reference to trade. The deputation were Mr. Sampson Lloyd, M. P., Mr. Wheelhouse, M. P., Mr. Stanhope, M. P., Mr. Sanderson, M. P., and the representative of the various Chambers of Commerce throughout the country. In the course of his reply, the Secretary of State for Foreign Affairs said: "It is one of those cases where it is very much easier to point out the evil which you may wish to see removed, than to apply a remedy which is efficacious; because, to look at it in a broad point of view, all these commercial treaties which are entered into for foreign nations are matter more or less of bargain and reciprocity, and as I have had more than once to remind similar deputations, we are not in a position in which we can enter into transactions of the kind, because our foreign policy, which I have no doubt is a sound one in the main, being what we call a policy of 'non-interference' which I refer, and we have not the means of insisting upon it; directly, we have given away freely what are derived in the first instance, and now we are here willing left to bargain with."

A HORRIBLE DEATH.

The London Free Press says: "Two box cars, on the G. S. R., took fire at Highgate, on Tuesday afternoon. In one of them were two horses, and in another, belonging to a couple of farmers, removing to Manitoba. The flames burst out ferociously, and before the attendants could jump off, they had a narrow escape. The agonized screams of the horses were heard in the distance, and although no fire had been put out, they were not yet when they were got out of the car, every bit of life was burnt from their bodies and they presented a horrible sight, parts of their carcasses being burned off and the burned flesh hanging from their bodies in different places. The owner valued the six animals at \$1,000."

can Canada, with a 12 1/2 per cent tariff, trade with the United States, which imposes at least ten shilling duty of goods from the U. S. Mr. Cartwright denounces United States farmers as fools. It is a pity he is not assisted with some of the same kind of folly. As President Lincoln once said to some persons who complained of the drunkenness of General Grant, when that officer was engaged in his brilliant campaign on the Mississippi, "let him be in the hands of the surgeon of Vicksburg. I wish some others of my Generals would drink the same kind of whiskey."

MYSTERIOUS DEPARTURE OF A YOUNG LADY.

A telegram from Guelph, 25th, says: "There has been considerable excitement in town to-day over the mysterious disappearance of a young lady from Walkerton, named Miss Julia Rowell, aged 18 years. It appears she has been in poor health for some months, which seems to have affected her mind. Some time last night, or this morning, she made her escape through her chamber window from the residence of A. H. Goodlove, Duke street. She was very lightly clad, report says in her night dress and a pair of slippers. The country has been searched for miles around, river drags and boats have been sent out in quest of her, but there are no tidings of the missing girl."

THE HALIFAX AWARDS.—The Chicago Post says concerning the payment of the \$5,000 award.—The Halifax award, and in fact, the whole affair, may have been a very costly one, and the net result a mistake, but there is nothing to do but to stand by it. These Reports are not selections; they give the originals in full, and at about one-third the cost of the English editions.

The latest advances and discoveries in the arts and sciences, the recent additions to knowledge in every department of literature, and the new publications as they issue from the press, are fully reported and discussed in the pages of these periodicals, in language at once terse, forcible and comprehensive. The articles are commonly more condensed and full of matter than the average books of the period.

THE EASTERN WAR.

MIDNIGHT DESPATCHES.

LONDON, March 29.—A Vienna special agent—It is rumored that Bismarck is making further efforts to assemble a Congress, and has asked England to forward a precise statement of his own policy.

Belgrade advises that in consequence of a request from Russia headquarters the Serbian Cabinet, after a consultation with the various institutions of Serbian troops provisionally to occupy Serbia, the Russian troops have been ordered to join the army of the Danube.

Belgrade special agent—It is stated that two divisions of Russian cavalry have been ordered to return to Roumania from Bulgaria immediately, to occupy the strategic line from Sibiu to Trebisna.

A Vienna correspondent of a Paris paper, and an interview with Ignatieff, who has not departed of a moment of the Congress, the General says, "England, by entering the Sea of Marmora in violation of the Treaty of 1857, has placed herself in a difficult position, out of which she was endeavoring to extricate herself in such a manner as would have her consent given. She consequently puts forward unaccepted demands, but the Russian will not be deceived. She is as long as the British fleet remains in the Sea of Marmora." The same despatch states that Ignatieff, according to a correspondent's report in a New York journal respecting his journey to Vienna, he may have had no conversation with a correspondent of a New York journal.

St. Petersburg despatches state that the papers submitted would give full information as to correspondence with all Powers. He would not, however, be the least bit in view of recent events, which in a great measure had set aside the force of the treaties under which Turkey had hitherto been governed. It was perfectly right and proper there should be a fresh examination of the question. The Government did not object to the Treaty of San Stefano being taken as a basis for a new arrangement. They had not attempted to stand on their position. They also felt desired a full and fair discussion. They regretted that the efforts to bring it about had not been more satisfactory, but having received the Russian Government's consent, they were obliged to consider the position of the country as one of the great Powers, having an interest in European settlement, and obliged also to consider the Russian Government's position, and whether it should be a matter of conference in any other way endeavor to maintain them. He asked to be excused from entering into details as to the course the Government might take in their duty to adopt.

Mr. Gladstone deprecated the attempt of the Chancellor of the Exchequer to vindicate the Government before the production of the correspondence. He held that the Government would not satisfactorily explain why England was not responsible for the failure of the Congress.

The Post says: It is rumored that Mr. Gaborone Harky, Secretary of State for War, has been raised to the peerage, and succeeds the Marquis of Salisbury as Secretary of State for India. Col. Stanley, now Under-Secretary of War, succeeds Mr. Harky.
